

The following three handbooks, available from Great Source (http://www.greatsource.com/), are great reference tools for teachers, students, and parents:

- *Algebra to Go*
- *Geometry to Go*
- *Math on Call*
Navigation Series

The *Navigations Series* may be purchased through NCTM ([www.nctm.org](http://www.nctm.org)). These books include detailed tasks for all grade levels and content strands, and a CD with blackline masters and additional readings. The following books are currently available for middle school level mathematics:

**Algebra**
- *Navigating through Algebra in Grades 6-8*

**Data Analysis**
- *Navigating through Data Analysis Grades 6-8*

**Discrete Mathematics (new!)**
- *Navigating through Discrete Mathematics in Grades 6-8*

**Geometry**
- *Navigating through Geometry in Grades 6-8*

**Measurement**
- *Navigating through Measurement in Grades 6-8*

**Number and Operations**
- *Navigating through Number and Operations in Grades 6-8*

**Probability**
- *Navigating through Probability in Grades 6-8*

**Mathematical Connection (covering all standards):**
- *Navigating through Mathematical Connections in Grades 6-8*

**Problem Solving and Reasoning (covering all standards):**
- *Navigating through Problem Solving and Reasoning in Grades 6-8*

**Journal**
- *Mathematics Teaching in the Middle School, NCTM publication*
