Science for All Students: **Promoting Excellence, Providing Access, & Pursuing Promise**

Scientific phenomenon amazes all learners and opens their curiosity into the study of science. Great science instruction is an endeavor of investigation into active learning - not just what is read in a text book - and intended is for *all* students. Join us on the journey to uncover strategies to support our diverse learners and to empower teachers to meet the needs of, and bring out the best in, every science student.

Facilitator will share strategies, classroom protocols, and resources to implement in the science classroom where all students see themselves as investigators, discovers, and contributors. This class supports professional learning goals related to TKES standards 1,2, 4, 7, and 8.

Meeting Dates: March 21, 2018

Time: 8:30am – 3:30pm

Location: Griffin RESA

Cost: \$35

Target Audience: Science teachers, paraprofessionals in science classrooms, science/instructional coaches, administrators

**Register on-line at www.griffinresa.net
Registration Deadline: **March 14, 2018****
