Behavior Strategies for New Special Education Teachers

Managing and addressing behavioral concerns in the classroom can be a challenge. The behavioral concerns of students with disabilities can act as barriers to their academic and social development. In this class, you will learn strategies that have shown support for promoting student engagement, increasing student compliance, and enhancing social success. You will become more responsive in preventing and responding to challenging behavior. This class focuses on systematic behavior regulation, classroom management, and universal behavior strategies.

This professional development opportunity is provided by a grant for our regional school systems. Therefore, it is open only to educators in the Griffin RESA region: (Butts, Fayette, Henry, Lamar, Pike, Newton, Griffin-Spalding, and Thomaston-Upson School Systems).
