

Bridging Math & Science: Interdisciplinary Teaching for K-5 Classrooms

WHEN

December 4, 2025
8:30 am – 3:30 pm

Registration Deadline: November 27, 2025

CLASS DESCRIPTION

This professional learning experience is designed to help K-5 educators seamlessly integrate mathematics and science through phenomenon-based and interdisciplinary instruction.

Using GaDOE's Project-Based Learning Units, Interdisciplinary Connections, and Interdisciplinary Challenges, along with the Math and Science Frameworks, Participants will:

- Identify effective phenomena for mathematics and science instruction.
- Recognize key crossover points between math and science concepts.
- Explore and share standards-based resources to enhance interdisciplinary instruction.
- Discover practical strategies for implementing engaging, real-world learning experiences.
- Strengthen their STEM identity and confidence in interdisciplinary teaching.

Join us to deepen your understanding of how math and science connect, foster student curiosity, and enhance classroom learning through meaningful, standards-aligned instruction!
