## Bringing Science Alive in an Online or Blended Learning Classroom

Whether you are teaching your students online, in person, or using a blended learning format, this class will provide you with strategies to make your science curriculum come to life! Ideas, resources, and methods will be shared for creating an engaging and interactive science learning experience for your students. Participants in this class will learn how to create exciting science explorations and investigations for their students in a virtual and/or blended learning classroom setting.

This class supports teachers' professional learning goals to meet standards 2,3,4, & 8 of TKES as they plan and implement instructional strategies to create an academically challenging learning environment.
