

CTAE, World Language, & the Arts

October 20-31, 2021

Cost: \$35

Platform Opens at 9:00 AM

Career, Technical, and Agricultural Education (CTAE) prepares students for college, apprenticeships, technical schools, or the military. Bilingual students can expect to earn 5%-20% more than their peers who only speak one language. Immersion into Music, Drama, Art, etc. increases students' problem-solving skills, their access to world cultures, and expands their creativity. These three areas of education are indispensable in helping students build real-life relevance and connecting them to a world of possibilities.

Please, join us for the Griffin RESA CTAE, World Language, and the Arts Virtual Conference! Keynote and Breakout sessions will be facilitated by engaging and innovative educators sharing effective classroom strategies in the areas of CTAE, World Language, and the Arts.

Live Virtual Keynote:

Changing Perceptions of Career, Technical, and Agricultural Education presented by GaDOE CTAE Division

Sample Breakout Session Topics:

- *CTAE Toolkit for Thriving in a Hybrid Learning Environment*
- *CTAE Pops- Preparing for Opportunities and Positioning for Success*
- *Fine Arts Integration- Merging Arts and Academics*
- *Rethinking Grading Practices in World Language*
- *3 Powerful Features of Google Slides for CTAE, Language, and the Arts' classrooms*
