

Classroom Management

for 6-12 Teachers

Classroom management is not simply the absence of discipline problems, but an intentional set of practices that promote a positive environment for all students. What does this look like in the secondary face-to-face classroom? What does it look like in a virtual learning environment? Routines, rituals, protocols, and strategies intentionally taught and reinforced that promote engagement, prevent off-task behaviors, and communicate caring with all, especially struggling, students.

This course is designed to help teachers in grades 6-12 organize and manage the learning environment to create a sense of community and maximize academic success. The course will provide ideas, strategies, and emotional objectivity to promote learning in face-to-face and virtual settings.

This course supports teacher performance in Standard 7 of TKES and is suitable for both beginning and veteran teachers who wish to set their students up for success with proactive, positive classroom management supports.
