Computer Science Endorsement

September 2023

The Computer Science Endorsement is a three-course program that meets the GaPSC 505-3-86 Computer Science rule, ISTE Standards and Computer Science Teachers Association Standards. This endorsement will prepare PK-12 candidates with the foundational knowledge within computer science through exploration of computer hardware, software tools, and video game design.

Candidates will also receive core IT and networking skills needed for basic server operation and security. This program allows candidates the opportunity to show mature programming and computations skills through advanced software development practices.

Candidates who successfully complete the endorsement will be prepared to develop and teach engaging and rigorous middle and high school computer science classes.
