

Data Integration for School Improvement: Excel Tools for Administrators and Coaches

WHEN

June 11, 2026
8:30 am – 1:30 pm

Registration Deadline: June 4, 2026

CLASS DESCRIPTION

This course is designed for administrators, instructional coaches, and graduation coaches looking to strengthen their data analysis skills using Microsoft Excel. Participants will learn how to organize, combine, and interpret data from multiple sources—including local SIS, MAP, Milestones, and PSAT—to make informed, student-centered decisions. Through hands-on practice with Excel tools like pivot tables, filters, conditional formatting, and auto-population, you'll build confidence in managing complex data sets. The course supports Leader Keys Effectiveness System Standards 1 (Instructional Leadership) and 3 (Planning and Assessment), helping school leaders drive improvement through clear, data-driven planning and intervention.

TARGET AUDIENCE

K-12th Grade
Administrators,
Instructional
Coaches, &
Graduation Coaches

COST

\$40 in region
\$55 out of region
