# Engaging Every Student: Strategies for Motivating Middle Grades Students

“Building brainpower is the missing link to closing the achievement gap for underperforming culturally and linguistically diverse students.” (Dr. Edmund Gordon)

Lack of engagement or motivation hinders student learning for middle grades. How do we implement engagement strategies that use what we know about how students’ brains work? Join us on this adventure to look at what tools and strategies we can leverage to use our brains to impact student learning.

This class supports teachers’ professional learning goals to meet standards 2, 3, 4, 5, 7, and 8 of TKES as they connect instructional planning and instructional strategies. The instructor will share strategies and resources to implement in the school setting that support all students including struggling students and diverse learners, ensuring a job-embedded professional learning experience that will positively impact student learning.
