Enhancing Vocabulary *Using Brain-Based Instruction*

Do you think your vocabulary instruction is in a rut? Does your cycle of vocabulary instruction look the same every week? If so, then neuro-education and brain research to the rescue!

Educators will explore how the three regions of the brain impact the memory pathways of the learners (TKES/TAPS 1). Through Sprenger's cycle for the three stages of memory development (2017), participants will explore an improved sequence of instruction that impacts students' long-term memory of vocabulary concepts (TKES/TAPS 2).

The instructor will guide hands-on experiences for new classroom-ready activities that support a student-centered environment, improving engagement (TKES/TAPS 8) and reading comprehension (TKES/TAPS 2).

Date: March 3 - 11, 2022

Time: 4:00PM-5:00PM

Location: Online through ZOOM March 3rd

Cost: \$35

Target Audience: Teachers, Coaches and Para-educators in Grades K-12

Register on-line at www.griffinresa.net
Registration Deadline: February 28, 2022
