Formative Assessment: Establishing and Maintaining a Routine of Checking for Understanding

Please note that this is a survey course, intended to provide a general overview of Tier 1 supports for both instruction and behavior to enhance your understanding of these important principles. You will be asked to reflect and respond to some discussion prompts on the topic, as well as complete three short assignments to relate Tier 1 practice to your past, present, or future classroom work. It's my hope that you'll follow up to learn more about this important concept as you strive to meet the needs of all students, through face-to-face classes at Griffin RESA and in your own school system.

Our learning targets are:

- What are some quick formative feedback methods I can incorporate in daily instruction?
- How can I organize and use information gained by formative assessments to determine next steps for students?
- What tech tools do I need to keep handy and utilize in my regular practice to assess student learning?
- How has virtual learning both helped and hurt my assessment practices? What can I do to plan for a changing educational landscape?
