## Foundational Literacy Skills Where Theory & Practice Intersect (K-3)

With all the talk about the latest research on how students learn to read, do you find yourself wondering what actual foundational reading instruction should look like in your classroom? Do you just troubleshoot students' reading errors? Do you have foundational literacy skills data but don't know how to address the deficits? Or do you not have a phonics scope and sequence? Join this active class where theory intersects with practice.

Participants will leave with a solid grasp of how to explicitly and systematically teach students to read through multisensory approaches. Learn how to increase reading accuracy with evidenced-based phonological awareness and phonics instruction.

<b>Date:</b>	January 30, 2024
