

Building Foundational Numeracy

WHEN

January 22, 2026
8:30 am – 3:30 pm

Registration Deadline: January 15, 2026

CLASS DESCRIPTION

This professional learning course is designed for K-5 educators seeking to strengthen students' foundational numeracy skills. Participants will explore research-based strategies for developing number sense, mathematical reasoning, and problem-solving abilities in young learners. The course will cover best practices for differentiated instruction, hands-on activities, and integrating numeracy across the curriculum. Educators will also gain insights into Georgia's mathematics standards and effective assessment techniques to track student progress. By the end of the course, participants will be equipped with practical tools and strategies to create engaging, developmentally appropriate math experiences that foster a strong mathematical foundation.

TARGET AUDIENCE
K-5th Grade Teachers,
Coaches, Instructional
Leaders, and
Administrators

COST
\$40 in region
\$55 out of region
