How to Develop Meaningful Transition Plans Moving Beyond Compliance

IDEA outlines transition services as a “coordinated set of activities for a child with a disability” that are individualized and result-oriented that facilitates movement to post-secondary environments. Successful transitions for students require thoughtful and purposeful planning. This course will provide participants with the understanding and the ability to write annual transition plans that include transition assessments, course of study, measurable goals and transition activities/services.

This professional development opportunity is provided by a grant for our regional school systems. Therefore, it is open only to educators in the Griffin RESA region: (Butts, Fayette, Henry, Lamar, Pike, Newton, Griffin-Spalding, and Thomaston-Upson School Systems).
