How to Understand a Psychoeducational Evaluation

School Psychologists and appropriate stakeholders provide a battery of assessments that guides the process by which educators and families review and consider educational, academic, and functional implications. This evaluation often details important information about a child's natural learning style, detailed by specific strengths and weaknesses. This session will provide participants with a deeper understanding of how to understand the implications and the practical application of this understanding.

This professional development opportunity is provided by a grant for our regional school systems. Therefore, it is Open only to educators in the Griffin RESA region: (Butts, Fayette, Henry, Lamar, Pike, Newton, Griffin-Spalding, and Thomaston-Upson School Systems).
