Innovative Scheduling for Leaders

To build knowledge, foster student motivation and school success, teachers need to collaborate, plan and reflect outside of their instructional time. Scheduling is a valuable but often untapped resource for school improvement. Innovative thinking with scheduling can increase funding and result in more effective use of time, space, and resources.

In this course, leaders will learn tips and strategies to maximize FTE funding with scheduling while improving their instructional climate.

The instructor will share materials and resources that support LKES standards 4, 5, and 7.
