Building Mathematical Foundations

**Intentional, Standards-Aligned Instruction
for Kindergarten–2nd Grade**

November 10th

**Designed for Kindergarten–2nd
Grade Teachers and
Instructional Coaches.**

This course is designed specifically for Kindergarten–2nd Grade Teachers who want to strengthen mathematical foundations through intentional, standards-aligned instruction.

Participants will:

- 1 Unpack the Kindergarten–2nd grade mathematics standards
- 2 Explore the research behind early numeracy and fluency development
- 3 Engage in evidence-based instructional practices
- 4 Practice formative assessment strategies and task-based assessments
- 5 Examine 3-Act Tasks, Three Reads, and Number Talks
- 6 Build fluency strategies that develop conceptual understanding—not just speed
- 7 See how activities align with each grade level and build across K–2.

Leave with a practical instructional toolbox filled with ready-to-use strategies, tasks, and assessment approaches that can be implemented immediately in the classroom.

***Hands-on,
practical application.***
