Level Up! Engage Every Student Student-Centered Strategies for Secondary Learners

Lack of engagement or motivation is a barrier to student success. Engaged students exhibit fewer off-task behaviors, have higher levels of mastery, and report increased efficacy. In this course we will investigate levels of student engagement and model the implementation of student-centered strategies for active learning. Join us on this adventure to look at tools and strategies we can leverage to engage all learners.

We will connect theory to practice and consider classroom management tools needed to engage active learners. The instructor will share strategies and resources that support all students, including struggling students and diverse learners. This job-embedded professional learning experience will positively impact student learning and support teachers' professional learning goals to meet standards 2, 3, 4, 7, and 8 of TKES.
