Level Up Your Differentiation: Tackling Assessment and Grading

Assessment and grading practices often vary from school to school and classroom to classroom. In this differentiated instruction session, participants will examine best practices in classroom teaching, assessing, and grading to support DI in the K-12 classroom. The tools gained can be used to support all learners and promote continuity from classroom to classroom. Participants will practice several immediate feedback strategies that check for understanding and guide instruction, as well as explore practices that align with a standards-based teaching and learning environment. Using the principals in *Rick Wormeli's Fair Isn't Always Equal*, *Myron Dueck's Grading Smarter, Not Harder*, as well as other teacher-crafted, proven grading practices, participants will take away sound, easy-to-implement assessment and grading practices to uncover and effectively communicate what students know and are able to do.

This class supports teachers' professional learning goals for differentiated instruction and assessment to meet standards 4, 5, and 6 of TKES. The instructor will share strategies and resources to implement in the school setting that support all students including struggling students and diverse learners, ensuring a job-embedded professional learning experience that will positively impact formative practices and student learning.
