Leveraging the Power of the SLDS to Increase Student Learning in Your School

Who has time to find data? YOU do with the help of the Statewide Longitudinal Data System (SLDS)!

This session is will provide support to assist you with:

- making more informed (data-driven) decisions designed to improve student learning
- identifying students' academic strengths and weaknesses
- increasing student achievement and close achievement gaps
- identifying and addressing potential recurring impediments to student learning (e.g., problems with attendance or difficulty in mastering prerequisite knowledge or skills, before they negatively affect student success)
- quickly creating targeted differentiation groups and cohorts

Join us as we explore the SLDS Dashboards, Student Profile Page, Testpad, Keenville, Teacher Resource Link (TRL), Parent Portal, Counselor Companion, My Career Plan, YouScience. (note: access to SLDS features is determined by each district, and therefore may vary from district to district).

You will discover how SLDS will help you save time and guide instruction based on student data. This session supports teachers' professional learning goals to meet standards 2, 4, and 6 of TKES as they connect instructional planning, differentiated instruction, and assessment uses.

Date:	March 16-25, 2021
Time:	ZOOM sessions 3/16 & 3/25 from 4:00PM-5:00PM
Location:	Online through ZOOM
Cost:	\$35
