Literacy Tools Across Content and Grade Levels to Support Success

Please note that this is a survey course, intended to provide a general overview of Tier 1 supports for both instruction and behavior to enhance your understanding of these important principles. You will be asked to reflect and respond to some discussion prompts on the topic, as well as complete three short assignments to relate Tier 1 practice to your past, present, or future classroom work. It's my hope that you'll follow up to learn more about this important concept as you strive to meet the needs of all students, through face-to-face classes at Griffin RESA and in your own school system.

Our learning targets are:

- What am I supposed to do if my students cannot read or do not understand English well enough to complete the work in my content area?
- How can I select resources – print, visual, online, and other – to make my curriculum accessible to all students, regardless of reading level?
- What are some effective strategies to teach academic vocabulary?
- How do I assess student writing in my curriculum area if I am not a language arts teacher?
