New Math Standards Overview: *For 3rd – 5th grade Educators*

The purpose of this workshop is to provide 3rd through 5th Grade teachers with an overview of the NEW Georgia Content Standards for Elementary School Mathematics to help participants prepare for implementation of the new standards. This training will lead participants to closely examine the content of each standard and the teaching and learning required for students to master the standards, as written. Additionally, participants in this training will discuss the crosswalk between the current and new mathematics standards, curriculum mapping, pacing guides and vertical alignment.

The facilitator will incorporate tasks from the GaDOE elementary school mathematics frameworks, model best practices related to student learning, and emphasize evidence and research-based instructional strategies used in an effective standards-based classroom.

This training is recommended for anyone interested in helping to lead the way in learning and understanding the NEW Georgia Mathematics Content Standards, including the mathematics teacher, instructional coach, administrator, and curriculum supervisor.
