The Survivor's Toolkit: Managing & Addressing Behavior Challenges for Students with Disabilities

Let's not just survive...let's flourish in a proactive design! Students with disabilities often display behaviors that act as barriers to social and academic development. This class will help you better manage the classroom by addressing behavioral concerns. Responsive special educators are better able to prevent and respond to challenging behaviors with strategies that are evidence-based and mindful of students' rights and behavior needs. In this class, you will learn how to collect and use academic and behavioral data for individual students and learn three behavioral strategies that have shown support for promoting student engagement, increasing student compliance, and enhancing social success.

This professional development opportunity is provided by a grant for our regional school systems. Therefore, it is Open only to educators in the Griffin RESA region: (Butts, Fayette, Henry, Lamar, Pike, Newton, Griffin-Spalding, and Thomaston-Upson School Systems).
